

Master of Health Administration

Academic Year 2017 - 2018

The Master of Health Administration program is designed to prepare students for effective organizational management based on competencies and evidence-based practices needed to become exceptional managers and leaders. The program is also committed to the improvement of health services through health services research and community engagement within complex health-related organizations. The 60 semester credit hour program is designed for aspiring and committed professionals who are interested in careers in health services administration in such settings as hospitals; managed care organizations; medical group practices; ambulatory, long-term care, insurance and pharmaceutical companies; consulting firms; government agencies; for-profit and nonprofit sector organizations. Through an internship, student portfolio and a final integrative experience, students are asked to incorporate, synthesize, and apply their knowledge within both an operational and a community context. The result is an organizational perspective that encourages students to integrate knowledge from a range of management disciplines while emphasizing accountability for effective performance. By the conclusion of the MHA program, students will be able to demonstrate knowledge and skills in:

- Accountability
- Achievement Orientation
- Communication Skills
- Financial Skills
- Impact & Influence
- Information Technology Management
- Performance Measurement
- Process Management & Organizational Design
- Project Management
- Human Resource Management
- Change Leadership
- Strategic Orientation
- Organizational Awareness
- Analytical thinking
- Information Seeking
- Initiative
- Professionalism
- Self Confidence
