Help us stay informed
- Keep the **Office of Research Services** in the loop about your projects! Our office can help with all aspects of submissions. **This includes grants and contracts.** We can even help you collaborate with others and find out if anyone else is responding to a particular funding announcement. If you are working on an idea regarding a grants or contract, please contact us as soon as possible. *Email ORS@unthsc.edu*

Research Schmooze
The *Research Schmooze* hosted by SPH for SPH/TPI and GSBS faculty was a huge success and well attended. If you have not participated in *Schmooze,* make plans to join us the next time around. ***Stay tuned as we expand the Schmooze to reach out to the community!***

Research Videos
Stay tuned for a special preview of the research video featuring the work of ***Dr. Erin Carlson***. Plans for the next research video are being made and will feature the research of Dr. Raheem Paxton.

Helpful Tips from the Grant Training Center for NIH Submissions
- *Take time to read the funding announcement to understand what the institute is funding. If you are not sure, send the program officer an email.*
- *Be patient when emailing a program officer, it may take up to two weeks for a response.*
- *Cover letters are often not required, but it is a suggested document so that you may state your intentions and suggest reviewers as well as a study section.*
- *Study the roster of individual study sections.*
